COLUMBIA, KENTUCKY, WEDNESDAY, OCTOBER 2, 1918.

NUMBER 49

## To Publishers of Country Weekly Newspapers.

The priorities Board of the War Industries Board has listed paper mills as an essential industry, and has rated them in fourth class for priority for coal, on the distinct understanding that the greatest possible economy in the use of paper be exercised, and that the reduction in the use of paper by the newspapers shall be 15 per cent.

Each paper mill will be put upon the priority list for coal, conditional upon their signing a pledge that they will furnish no paper to any consumer who will not also sign a pledge in duplicate that he will exercise the greatest possible economy in the use of paper.

The war committee of weekly newspaper publishers feels that the necessary saving of 15 per cent should come out of the industry as a whole.

Each publisher shall eliminate the following wasteful practices:

1. No publisher may continue subscriptions after THREE MONTHS after date of expiration, unless subscriptions are renewed and paid for.

No publisher may give free copies of his paper; except for actual service rendered.

No publisher shall send free copies in exchange for other publications, except to such other publications as are printed within the county, or within a radius of 40 miles from his point of publication.

No publisher shall sell his publication at an exceedingly low or nominal subscription price.

No publisher shall sell his publication to anyone below the published subscription price.

Publishers shall, so far as possible, procure paper and all other materials from the nearest available source of supply.

Publishers of papers of more than 8 pages in size will reduce the pages in excess of 8 pages 25 per cent. This reduction shall be an average reduction over one month's period.

Any publisher of a 4 or 8 page paper will be considered to have fulfilled the requirements of this order if he immediately puts into effect paragraph numbered 2 to 13 inclusive, and in addition thereto reduces to the lowest possible point all press room waste.

No newspaper may be established during the period of the war, except those for which arrangements have been made and plants purchased previous to the issuing of this order, or unless it can be shown that a new newspaper is a necessity.

A sworn statement will be required from each publisher on November 1 as to how many of these rules have been put into effect by him, and what results in the matter of reducing paper consumption have been obtained.

## "THEIR" SECRETARY OF STATE.

Inspector Sewell and Secretary of State Lewis do no Agree.

Frankfort, Ky., Sept. 24.—A report by State Inspector and Examiner Nat B. Sewell on the office of the Secretary of State presents a symposium of his views and those of Secretary of State James P. Lewis on the points involved in permitting the office employees to share in the expense of the contest instituted by Barksdale Hamlett to oust Judge Lewis and his force, and in employing members of his own family at clerical work.

Mr. Sewell criticized severely what he terms "boosting" salaries at the end of the fiscal year to the extent of the annual appropriation, and embodied a reply of Judge Lewis to these points in his report.

Mr. Sewell said Judge Lewis paid his clerks their salaries in full and they refunded to him or A. J. Sturgill, then in his office their pro rata of the expenses of the contest.

Concerning this Judge Lewis said:

"As to what they did with this money I hardly think it a part of your office duty to make inquiry, but for your information I will state that after returns were in, showing my opponent, Barksdale Hamlett, brought an injunction suit.

EMPLOYMENT OF LAWYERS.

"To defend this suit it was necessary to employ numerous lawyers to take depositions and mandamus election officers to do their duty.

"After winning the certificate of election before the commission, having it supported in five suits before Circuit Judges, and having finally won in the Court of Appeals at a total cost of about \$1,500, I think my opponent should have been satisfied.

"However he next instituted a general contest, which placed every clerk's desk in my office in contest. Therefore I was and am under the impression that it was the moral duty of every clerk in this department to pay his proportional part of the expense of these contests, the total of which amounts to nearly \$6,000."

Judge Lewis then takes up the last criticism:

"I understand that because the monthly payments I made to clerks did not fully consume the appropriation for this office you contend that I did wrong in dividing the balance between the office force at the end of the year.

"I understand from the Auditor's office that it was the practice of all departments with appropriations, to distribute any balance at the end of the year to the working force."

"At the present time," Mr. Sewell says, "Secretary Lewis has his daughter, Miss Rose Lewis, at \$166.66 the month; his son, Edson Lewis, at \$112.50, and until June, 1917, his son, J. E. Lewis, at \$125.

Salaries in the Secretary of State's office Mr. Sewell said, "are very much higher than in various other departments."

## Notice.

We are now ready to supply you with Dog Tags for the year 1919.

S. C. Neat clerk,  
Adair County court.

## Notice of Stock Election.

This day came P. K. Jones and 19 other legal voters and residents in Roley voting precinct, No. 12, in Adair County, Ky., and petitioned the Adair County Court to cause to be open a poll at the next regular November Election, 1918, the question as to whether or not stock of any kind should be permitted to run at large in said Precinct.

Rev. O. P. Bush, who gave his parting words to his congregation, last Sunday night, was greeted with an immense audience, showing that all Columbia was his friend, and that the departure of himself and family were deeply felt.

STRAYED:—A red sow shoat, weight about 40 pounds. Will pay for information. Mark, split in left and swallow fork in right. 8 rings in nose.

## SEARGENT S. P. TURNER

Back From France, Hero of Chateau Thierry.

S. P. Turner who served with distinction on the Mexican border and afterwards went with the 2nd Division of Pershing's army to France is at home on furlough, invalided on account of being twice gassed on the battle fields of Chateau Thierry. Turner is a member of the 9th 23rd Inf., 5th and 6th Marines, the troops that stopped the crack Prussian Guards in their last great offensive and drive to Paris on July 18. Seargent Turner wears the medal of a sharpshooter and the double gold stripes of a years distinguished service in France. He was distinguished for bravery on the battlefield, and marched with the other American heroes to whom credit is given by the French Republic for saving Paris from the Hun, under the Napoleon Arch on July 4.

Turner is a native of Esto, the son of John Turner, and married Miss Hattie Balzer. He will go to a hospital in the North this week to be treated for the effects of Mustard gas.

## "Flu" At Camp Taylor.

Two hundred and sixty-two cases of influenza were reported by the base hospital authorities at Camp Zochary Taylor. All are of the mild type. Pneumonia, the only complication feared, has developed in one or two cases. Medical inspection is made twice daily in all units in order to report and treat all cases as fast as they develop. Frequent inspections are made in order readily to recognize symptoms as they develop.

## From Tennessee.

Sept. 20th, 1918  
Jamestown, Tenn.  
Adair County News,

Gentlemen:—

I enclose my check for \$3.00 and trust this will pay up back dues and give me another year in advance.

I am not a native of Adair county but am from "Old Kentucky" and as you put out about the best country paper, I like to keep informed.

Yours truly,  
E. M. Shelley

## Broke Arm.

## Centenarian Registers for War Service.

Mrs. Esther Dohoney who celebrated her 100th birthday in May of this year came down to the Court-House last week on women's registration day and registered for service for war activities. Mrs. Dohoney says that she is ready for any service called upon her to do. This grand mother of American patriots in the glory of beautiful old age spends much of her time knitting for the soldiers.

## ATTENTION.

Red Cross Members and Every-body Especially Boys and Girls.

For the purpose of making Gas masks to protect our soldiers from German poison Gases, the Government needs all the peach stones, plum stones, cherry stones, walnut shells, hickorynut shells, it can get and has asked the Red Cross members to gather them in from all part of Adair county and send them to it.

Judge W. S. Sinclair has agreed to receive them at the court-house in Columbia and keep them until shipped.

So every body will gather up all they can get and bring or send them in as soon as they can.

It does not matter how old they are if sound, but they must be dry. It is the shell and not the kernel that is wanted. They need not be separated but just brought in walnut shells and hickory nut shells, &c, all in the same lot. Let us see what a big pile of them we can make. If you desire you may send them in with kernel in. This is expected to be done. Let us see how much you have done, not for pay, but as an act of patriotism.

W. W. Jones, Chairman.

## Died in Louisville.

Mr. John A. Chilson, who was a brother of Mr. H. G. Chilson, this place, a substantial citizen of Louisville, died a few days ago. He was fifty-seven years old and had been in business on Portland Avenue for a number of years. He leaves a wife, no children. Mr. H. G. Chilson was notified, by wire, of the serious illness of his brother, but death came while he was en route to the city. The interment was in Cave Hill.

## Sent Home.

John W. Murrell, Davis Andrews, Otis Rose, Bob Hood, Berry Garner, Sam M. Suddarth, Mr. Breeding, and several other Adair county boys whose names we could not learn returned last week from Macon Ga. They had been drafted for limited military service but were returned for various reasons.

Several Russell County boys were sent back in the same party.

## Draft Call Cancelled.

Gen. Crowder announced yesterday that, on account of the epidemic of Spanish influenza, the draft of 142,000 men for October 7 12 has been cancelled. Adair county's quota for this draft had been fixed at 89.

## Adair County's Quota for Fourth Liberty Loan is 153,000.

The United States Government has fixed the amount of Bond sales as above and the Sales must be made.

St. Louis, Mo., Sept. 27, 1918.—The quota of Fourth Liberty Loan Bonds to be sold by Adair County, in the campaign that opens Saturday, Sept. 28, and closes Saturday, October 19, covering a period of three weeks is \$153,000.

This county's quota in the Third Liberty Loan was \$43,700 and the amount of bonds sold totaled \$71,600.

The quota for the present campaign is considerably larger than for former loans, and to reach the sales allotted, and go over the top, and demonstrate to the world that our county is 100 per cent American depends upon the prompt response of our citizens.

This county has done its full duty in the past, now that our boys are on foreign soil, ready to wrest victory from the Hun, there is no question but that the loyal citizens of the county will do their full duty.

## \$150.00 Subscribed on Volunteer Day.

The Voluntary Liberty Loan meeting, held in the court-house, last Saturday, was well attended, and subscriptions to the amount of \$15,000 were taken during the afternoon and evening. There were no speakers here, from a distance, but Rev. R. V. Bennett, President of the Lindsey-Wilson, was called upon, and he made one of the most thrilling patriotic addresses that has been delivered here since the war commenced. He was lustily cheered throughout. During the afternoon pupils of the Lindsey-Wilson and the Graded School paraded the streets, banners flying.

## WAR NEWS.

On the gigantic battlefield from the North Sea to Verdun. British, French, Belgian and Americans are delivering smashing blows against the Hindenburg line, which at places is either pierced or badly shaken. In the past three days 40,000 prisoners have been captured with quantities of guns and war materials.

Bombardment of the Metz forts by American artillery is getting on the nerves of the German people according to a dispatch from Amsterdam. At first the people believed it was an air raid and hid in cellars but the frequency of the explosions convinced them it was artillery fire.

Amsterdam, Sept. 29 (by A. P.) The American bombardment of the fortress of Metz is getting on the nerve of the German people. This is emphasized by a correspondent of the Rhenish Wetphalian Gazette of Essen, who visited Metz on Thursday.

"When the bombardment of the fortress area started the inhabitants of the city believed an air raid was in progress and took to their cellars. When the truth became known many persons left the city, but most of them have returned."

Camp Dix, N. J., Sept. 29 (by A. P.)—Sixty-two soldiers died from influenza here within last twenty-four hours, bringing the total number of deaths to 387. One of the victims was Lieut. George Lang, of Minneapolis.

To-day 644 new cases of influenza were reported, making the total about 6,000.

Seventeen men from Kentucky and Indiana are included in to-day's casualty list, issued by the War Department last night. The list names 37 killed. 17 missing and 290 wounded.

Oct. 1.—Bulgaria has surrendered and Turkey whipped to a frazzle is seeking peace. Bulgaria's surrender was unconditional as Germany's will have to be ultimately. The complete surrender of the great Balkan power blasts forever Germany's dream of a Middle Eastern Empire.

Woodrow Wilson addressed the Senate yesterday on behalf of National Woman's Suffrage. It is thought that his speech influenced a few votes but at this moment the result is not known.

Spanish Influenza claims 4 victims at Camp Taylor. Fifteen nurses and four doctors are down with the disease which is of a very fatal type. Spanish Influenza is very much the same as what we ordinarily know as pneumonia.

The English and allied armies have smashed the Hindenburg line to a depth of 2 miles. St. Quentin, Cambrai, and Lille will soon be in the hands of Allies. 300 guns have been taken and many thousand prisoners.

# BUSINESS ACUMEN PROMPTS HOLDING TO LIBERTY BONDS

VALUE AS COLLATERAL IS GREATER THAN ANY KNOWN TO FINANCE.

## WATCH OUT FOR SHARPERS

Beware of Men Who Offer "Some-thing Better" in Exchange, Financier Advises.

The value as collateral of United States Liberty Bonds, according to the president of one of the largest St. Louis national banks, is greater than any evidence of wealth known to finance.

Next to gold coin and specie they represent the most stable medium of exchange within the power of our government to issue, and there is nothing on which banks the world over would rather lend money.

This is pointed out as one of the numerous material reasons for holding tight to the bonds when once they are purchased. The patriotic and sentimental reasons for not disposing of them are quite as strong, but the arguments in that field are less concrete and more difficult to present in language than those dealing with the investment.

Never Good Reason to Sell.

There is never a good reason for selling one's Liberty Bonds. The main cause for doing so in 98 per cent of cases is to get money. It is easily possible to get the money and still retain title to your bonds, as any bank in your city will lend you close to their market value, and for a long period of time at inside interest rates.

Then you are still drawing your bond interest, so that if you pay the bank 6 per cent your net rate is only 1 1/2 per cent with a 4 1/2 per cent bond as collateral.

Since the first Liberty Bonds reached the hands of the public they have been the objectives of an endless class of sharpers and unscrupulous business men who have schemed untiringly to get the holdings of their less keen neighbors. These gentlemen come with propositions "just as safe and yielding far greater returns."

Against such proposals all holders of United States bonds, large and small, are doubly warned.

There is nothing nearly as safe and yielding better returns which anyone would want to dispose of. Russell Sage, than whom no financier has ever had a better understanding of investments, once remarked that there was no such thing as a safe 6 per cent investment. He died leaving a marketable estate of upward of \$75,000,000, so that his opinion is worth considering.

The 4 per cent or 4 1/2 per cent return from your Liberty Bonds will continue to come to you as regularly as the succession of dawn and darkness through your life and the duration of the bond, and to your descendants after you. And just as sure as the United States government endures you will receive the principal in full at the expiration of the loan period. It is impossible to conceive, therefore, of a more entirely safe and comfortable investment to hold always than Liberty Bonds.

A Permanent Investment.

Thus far no one has been able to come forward with a logical argument against Liberty Bonds as a permanent investment. The only circumstance presenting the semblance of soundness is that of the persons who point out the small interest return, in view of income on other investments of a standard variety. Changing conditions, however, rapidly demolish and upset standards, and with a return to normal times and plentiful money the 4 1/2 per cent rate will be considered large.

It takes no effort of memory to recall the time when banks were loaning vast sums at 4 per cent, and even a shade under that figure. Then municipal bonds bearing 4 per cent were selling as high as \$102 to \$106, the premium bringing the interest basis well under 3 1/2 per cent. On a basis of their market price, railroad stocks and other standard securities were yielding little if any better than 4 to 5 per cent.

Government bonds brought enormous premiums, especially those bearing 3 per cent and better. Certainly the credit of the United States government, and the values back of it now, are immeasurably greater than at any preceding period in our history, so that it is safe to predict that those who hold on to their Liberty Bonds will in after-war years realize substantial profits on the holdings should they feel disposed to sell when peace has been restored.

**WHAT A SAILOR COSTS.**

The cost of the United States Navy per man per day during the first six months of the fiscal year 1918 varied from 49 cents on the larger types of vessels to 52 cents on the smaller types. A \$50 Liberty Bond will keep a sailor for 102 days on the larger vessels and for 96 days on the smaller types.

## SPECIAL APPEAL TO WOMEN

Holdings Backed by Government Are More Attractive Than Ever Before.

Edward B. Pryor, president of the State National Bank of St. Louis and a specialist in security values, says he is advising but one thing to persons seeking his advice relative to investment, i. e., to purchase Liberty Bonds.

"No investment in the world," said Pryor, "is safer, and viewed from the angle of average investment returns in the past, the yield is large. Formerly, when Government bonds were paying only from 2 1/2 to 3 1/2 per cent net, it was rather discouraging to recommend their purchase to investors. Now, however, the case is very different. When you own a Government backed security paying 4 1/2 per cent, you've got something."

"Particularly good for women investors are the Liberty Bonds. They constitute an estate more easily handled than any other class of property. With the minimum of instruction any woman can be schooled in how to manage and handle her bonds so that she cannot be deprived of them, regardless of her business equipment."

Practically No Tax.

"Further the tax feature is so small as to be almost negligible. Up to \$5,000 there is no tax whatever. From that figure up the bonds are free from the normal tax, and subject only to the surtax, which, in blocks from \$50,000 to \$75,000, is hardly worth mentioning. Framers of the laws creating these issues had no idea of making them productive to the Government in general tax levies. They are to supply war funds, and every effort was made to make them attractive to buyers."

"If anyone comes in to me to inquire relative to investing money, my unchanging formula is to buy Liberty Bonds. In doing this, it is not possible to make a mistake or incur loss. Other investments are doubtless good, but who can predict what conditions will be after the war? Women and others whose living depends on their incomes cannot exert too great caution in these unprecedented times. To my way of thinking, zenith of caution is to buy American Government bonds."

"It is needless to say anything about the values back of Liberty Bonds and their desirability as collateral. No business concern or individual can place its or his surplus in a more flexible and liquid asset. The solid comfort and satisfaction of such an investment is, in my mind, the greatest incentive next to patriotism in acquiring Liberty Bonds."

## GIVING

By Mary Carolyn Davies.

Just money! That is all we're asked to give.

He gave his life, Jim. He'd have liked to live

For Betty—bless her shy young heart

—had only

The week before he left, put on his ring.

How long her life will be for her, how lonely

With nothing of him but remembering!

She never flinched, nor he, my son,

they gave;

She working still, and Jimmie in his grave.

And now today we're asked again to save,

And give, give, give the country what we've sweat

And toiled to earn. It's hard to all—

and yet,

We save, we calm, we fortunate, we living,

I wonder, dare we, dare we call this giving?

## WHAT YOUR BOND WILL DO

Every Dollar Invested in Fourth Liberty Bonds Brings Tangible Results.

If you buy a \$100 bond of the Fourth Liberty Loan you are lending the United States Government enough money to feed a soldier in France a little more than seven months. Or you have furnished enough money to give him a complete outfit of winter and summer clothing, including shoes and stockings, and slicker and overcoat and blankets, with enough left over to arm him with a good revolver. You have done that much to beat back the Hun.

It takes \$35 more to arm him with a rifle with a bayonet on it, and if you buy a second \$100 bond you furnish him this rifle and 1,000 cartridges for it; and there will still be enough of your money left to purchase a good-sized bomb to throw in a dugout or demolish a machine gun together with the Hun operating it.

This is a story of two American wars. It begins with the assault of the American forces upon the Spanish defenders of Santiago in the days of '98 and the scenes of the closing chapters are laid upon the steel-swept fields of France where the soldiers of the great republic of the western world are battling the foes of humanity and civilization.

Intrigue, mystery, chivalry, love, feats of bravery on the field of honor—all these elements are interwoven in a story that mystifies and grips and thrills.

This first up-to-the-minute novel of the new America—the America upon whose arms rests the fate of the world—will appear as a serial in this paper, beginning in an early issue.

## MAKES NATIONAL DAIRY SHOW

Federal Government Is Advancing Exhibition's Interests.

### STATE OF OHIO ALSO ASSISTS

Uncle Sam Decides to Make the Big Show, to Be Held at Columbus Oct. 10-19, the Medium Through Which Its Message to the Country on Subject of Dairying Shall Be Given.

Columbus, Ohio. — Uncle Sam, through his Food Administration, having advised the public to "use more milk" has felt an obligation to support and advance in every way possible the National Dairy Show which will be held this year in this state in this city, October 10-19.

Uncle Sam has expressed his approval by appropriating more than \$25,000 and by assigning a number of his leading experts to take charge of the educational work at the show.

The State of Ohio through its Board of Agriculture, and the city through its Chamber of Commerce, are combining with the citizenship generally to make a success of the event eclipsing any previous record.

There was a time when the advisability of this year's show was questioned, but in the council of those who have the interests of the dairy cow most at heart it was declared that failure this year of all years would put the dairymen of the country in the position of being slackers. The Dairy Show is not organized for profit, and the balance on the wrong side of the ledger means that a few public-spirited individuals will have to make up the deficit.

It was at this juncture that Uncle Sam, having decreed that the dairy cow shall not perish from the earth—or at least the United States, for she is perishing all over Europe—decided to make the show the medium through which its message to the country on the subject of dairying should be given. To that end, H. E. Van Norman, dean of the College of Agriculture, University of California, who is on leave from his school, serving the government, was put in charge of the government's interest.

The cardinal point in the government's contention is that the dairy herds of this country must not suffer deterioration, for from American and Canadian herds must all the herds of Europe be replenished after the war. Therefore the breeder must be interested. He will find among the thousands of cattle, the four reigning queens of the recognized dairy breeds. The four champion cows of America have all made advance reservations. They are: Minerva Beets, Holstein, owned by R. E. Haeger, Algonquin, Ill.; Oxford Majesty Gypsy, Jersey, owned by L. V. Walkley, Southington, Conn.; Sherwalton Main Queen, Ayrshire, owned by N. J. Chisholm, of Westchester, New York, and Princess Bergere, Guernsey, owned by W. W. Marsh, of Waterloo, Ia.

The sterner sex matches this list, blue blood for blue blood. The grand champion bulls of these strains will be at Columbus. They are: Ladysmith Cherub, Guernsey, owned by D. D. Tenney, St. Paul, Minn.; Cavalier Lord, Ayrshire, owned by A. Seitz, Waukesha, Wis.; Oak DeKol, Holstein, Iowa Farms, Davenport, Ia., and Gamboe Veelum Majesty, Jersey, owned by M. D. Munn, St. Paul. While prices on such cattle depend somewhat on circumstances, conserva-

### He Is Uncle Sam's Man at the Big Dairy Show

H. E. VAN NORMAN,

Dean of the College of Agriculture of the University of California, who is on leave of absence for one year from his school to assist the government in the dissemination of information regarding the dairy industry.

The government, in turn, has loaned him to the National Dairy Show to be held at Columbus, O., Oct. 10-19, where he will have charge of government exhibits, representing thousands of dollars, and of the general campaign of education which the government will offer to the people at that time.

Active cattle men say that a quarter of a million dollars would not touch these eight animals.

Judges for the several recognized breeds and the days of judging are: Ayrshires, Wm. Hunter, Ontario, and Prof. H. H. Kildee, Ames, Ia., October 14; Guernseys, Chas. L. Hill, Rosedale, Wis., Oct. 16; Jerseys and Brown Swiss, H. G. Van Pelt, Waterloo, Ia.; Brown Swiss, Oct. 14; Jersey, Oct. 15; Holsteins, W. S. Moscrip, Lake Elmo, Minn., Oct. 17.

### MILK ESSENTIAL TO LIFE OF CHILD

"Hundreds of thousands of mothers and fathers have yet to learn the undisputed fact of science that nature looks up in milk an essential something necessary to the fullest development of child life," says H. E. Van Norman, dean of the College of Agriculture, of the University of California, who is delegated by the federal government to have charge of the National Dairy Show at the National Dairy Exposition at the National Dairy Show to be held in Columbus, Ohio, October 10-19.

"The cow," he points out, "foster mother of half the human race, is so-called because half the babies born to man must depend upon her milk before they are two months old, and all children should, through their early life, have a liberal portion of milk and butter if they are to develop into strong, virile, prepotent men and women. The uses of these dairy products, the saving of these young lives, will be fascinatingly presented to the public by actual demonstrations in the use and preparation of dairy products, by the Children's Health Conference conducted by the National Children's Bureau, where parents may bring their children and have them examined by government experts where they may receive helpful suggestions for improvement in the development of their children."

THE aristocracy of the cow world will be on display at the National Dairy Show, which will be held at Columbus, Ohio, October 10-19, this year. The four grand champion cows of the recognized dairy breeds are shown. All of them and all the medals and ribbons they have won will be shown at the Dairy Show. Opposite each breed is the man who will judge the cows, who will compete with these recognized leaders for first position. They are Charles L. Hill, Rosedale, Wis., judge of Guernseys; W. S. Moscrip, Lake Elmo, Minn., judge of Holstein cattle; H. H. Kildee, Ames, Ia., judge of Ayrshires, and Hugh G. Van Pelt, Waterloo, Ia., judge of Jerseys. These men are nationally recognized experts in the lines they have been designated to judge.

## HAS A MESSAGE FOR THE WOMEN

Government Considers Dairy Industry of the Greatest Importance.

### ENGAGES EXPERTS' SERVICE

Prominent Women Educators Will Divide Their Time Between Washington and Columbus Until After the Great National Dairy Show Is Over.

The government plainly considers the dairy interests of the country of extraordinary importance and believes that it has a message of great value to the women of the United States as is shown by the co-operation which is being extended to the National Dairy Show which will be held at Columbus, Ohio, October 10-19.

The government has reached out and commandeered the services of two expert women from two of the leading universities of the country and has given them instructions to divide their time between Washington and Columbus until after the Dairy Show is over.

These women are Miss Emma Conley, in charge of the home economics department of the University of Wisconsin, now on a year's leave of absence to the States Relations Service Committee of the Department of Agriculture, and Miss Jessie M. Hoover, who was dean of the home economics department of the University of Idaho before becoming attached to the dairy division of the Bureau of Animal Industry at Washington. After making a survey of the possibilities of the Dairy Show for delivering the message the government wants the American housewives to get, they have named the following committee to co-operate: Miss Edna N. White, director home economics, Ohio State University, and president American Home Economics Association; Miss Gertrude Van Hoesen, formerly of the Univer-

sity of Chicago and now of United States Department of Agriculture, and Miss Anna Van Meter, home economics department, Ohio State University.

One of the largest of all the buildings of the Exposition Grounds will be turned over to this work. There will be practical demonstrations of dairy lunches of nutritious meals prepared largely from dairy products and there will be a special restaurant managed by the home economics department of the State University. Child Welfare work will be exemplified in many ways. There will be lectures and demonstrations of the necessity for milk in the diet of all children.

Dr. E. V. McCollum, of Johns Hopkins University will exhibit the famous rat colony which was used in his experiments to determine the actual food value of milk and the dire consequence of a lack of milk in the regular diet of youngsters.

Another special feature will be the possibilities of dairy products in filling the dinner pail, a problem which the women all over the United States are finding peculiarly difficult under the present high schedule of food prices.

### SIRE AND THEIR GETS AMONG THE EXHIBITS

Calamity Jane will not be at the National Dairy Show at Columbus, Ohio, October 10-19 this year.

Calamity Jane attracted more attention a year ago in ten days than in all the three years of her earlier experience.

But Calamity Jane is dead. She has gone the way of many another unprofitable cow.

She was one of the 8,000,000 cows in the United States which eat more than they produce. They may give a little milk, night or morning, but in reality they milk their owner. It is part of the purpose of the Dairy Show to inspire farmers and dairymen everywhere to know exactly what each cow in their herd is doing and whether or not it is a profitable investment. Among the exhibits which impress this lesson will be a series of sires and their gets, showing how intelligent breeding increases the output and consequently the profit of each generation of cows.

### Calls All Cows by Their First Names

W. E. SKINNER, General Manager of the National Dairy Show to Be Held at Columbus, O., Oct. 10-19.

Years of experience in handling large dairy and cattle shows throughout the United States has given Mr. Skinner a first hand knowledge of practically every prize winning cow in the United States.

From the veteran of a dozen prize rings to the yearling being shown for the first time, he knows them all by name, their breed and their probable performances.

### SWISS CHEESE NOW MADE IN AMERICA

There was a day when "Swiss cheese made in America" was supposed to be a joke. That day has passed. One of the most interesting and informing exhibits which will characterize the National Dairy Show at Columbus, Ohio, October 10-19, will be several tons of cheeses made in this country after famous formulae which have old world reputation.

Swiss cheese, Roquefort, Formage de Brie and Limberger cheese are all made in the United States better and more cheaply than they ever were made in Europe. An air of quaintness will be given the exhibition by having it in charge of young women garbed in the costume of the countries which once produced these cheeses for the American table.

High cheese of this sort may be considered a war industry. American manufacturers have made such progress that aside from the fact that European dairy herds are depleted almost to the point of extinction, it is doubtful whether European manufacturers will be able in many years to come to get back the market they formerly enjoyed in the United States.

### IMPORTANT MEETINGS AT THE DAIRY SHOW

Columbus, Ohio. — A number of important conventions will be held in conjunction with the National Dairy Show, in Columbus, Ohio, October 10-19. They are The International Milk Dealers, October 14-15, The National Association of Ice Cream Manufacturers, October 17-18, and The American Dairy Science Association.

## NATION DEPENDS UPON DAIRY COW

This Truth Is Being Sent Home to the American People.

### INDUSTRY MUST BE SUPPORTED

North America Almost the Only Land Where the Dairy Business Has Not Been Crippled to the Point of Extinction — Federal Government Lending Its Support to Spread This Message.

Without the dairy cow we cannot rear children. Without children we cannot exist as a nation.

North America is almost the only land where the dairy industry has not been crippled to the point of annihilation.

These three reasons, according to M. D. Munn, of St. Paul, Minnesota, one of the principal live stock men of the country and vice president of the National Dairy Show, are the reasons why the entire country must awake to the need of supporting the dairy industry as a whole.

These facts are being emphasized in connection with the National Dairy Show at Columbus, Ohio, October 10-19, when the government will lend its strong support in sending home these truths to the people of the country.

According to Mr. Munn the vital lesson, which men like Dr. E. V. McCollum, of Johns Hopkins, are giving to the public here and there, must come home to the nation as a whole, if the United States is to be spared the misery which holds almost all of Europe in its thrall.

There are great areas in Europe where a man cannot buy a glass of milk for any amount of money. Every drop they have of the precious fluid is saved for children. And there are areas of devastated Belgium and elsewhere that the mortality among children is 90%. Think of it! It is the purpose of the National Dairy Show to encourage the discouraged dairymen of the United States to labor on.

There are, in round numbers, in this country, 23,000,000 dairy cows and these produce 89,000,000,000 pounds of milk. Large as this amount may appear, it is not sufficient for one full glass per capita for the population of this country per day, when other dairy products are taken out of the total supply.

Last year, over 19% of all food eaten in this country came from the dairy cow. In addition to this, the dairy cow is almost the sole support of soil fertility on the average farm. Agriculture would almost disappear from the United States within five years if the dairy industry were annihilated. At least, agriculture would be so seriously crippled that anything like commercial prosperity anywhere in the land would be out of the question.

The National Dairy Show is the one opportunity to bring the men of the country and the housewives of the nation together to give them the benefit of the collective wisdom of the United States in reference to the dairy cow. Just now dairymen everywhere are immensely in need of encouragement.

## Blue-Blooded Horses Aid In Winning the War on Huns

THE Federal Government has recognized the importance of scientific horse breeding and the relation of the horse show to the industry by granting special railroad concessions to the animals that will be shown at the Horse Show, which will be the night feature of the National Dairy Show at Columbus, O., Oct. 10-19. The first three days of the show will be given over to Percherons. The week of Oct. 14-19 will be devoted to saddle and harness horses, including jumpers, hunters and cavalry mounts. Johnny Jones, with Frances Robbins up, one of the prize horses of the Oppenheimer stables of New York City, is here shown ready to enter at the Columbus show. Next is W. S. Blitt, New York, national manager of horse shows, who will be in charge of arrangements.

## UNITED STATES COMMANDEERS THE SERVICES OF WOMEN EXPERTS ON MILK

MISS EMMA CONLEY, Formerly Dean of Home Economics of the University of Wisconsin.

MISS JESSIE M. HOOVER, Formerly Dean of Home Economics, University of Idaho.

THE government interests in the dissemination of scientifically correct information regarding milk is such that it has borrowed the services of a number of the country's best informed women whose business it has been to teach this subject in the big universities.

The two here shown are on leaves of absence and working under the States Relations Service Committee

of the Department of Agriculture. They have been designated to have charge of the government's demonstrations at the National Dairy Show to be held at Columbus, O., Oct. 10-19. They will have under them a corps of experts, lecturers and workers, whose business it will be to explain the unrealized possibilities of milk in the human diet and particularly its imperative necessity as a food for children.

## FIGHTING LOAN.

As the campaign for the Fourth Liberty Loan approaches the American Army in France moves on toward Berlin. Under our own leaders the great American Army has won a notable victory.

The Fourth Loan must be a great success. The Fourth Liberty Loan is a fighting loan.

When our soldiers on the battle front are braving death, each one offering to make the supreme sacrifice for his country and the great cause, we who remain safely at home surely should give them every support, should make every sacrifice to strengthen them. If we can not fight ourselves we can make our dollars fight.

It is a great cause for which America is engaged in this war; it is a great struggle in which the very hope of the world is bound up that is being waged in Europe and on the high seas. It is an honor to have a part in it and all American, all of their lives, will be proved of the part they had in it or ashamed of their failure to do their part.

## THE MAN WITHOUT A COUNTRY

"DAMN THE UNITED STATES!"—"I wish I may never hear of the United States."

John Alton, a conscientious pacifist, utters this curse at a time when he is angered by the scorn of his patriotic friend, and dejected by the loss of his sweetheart, Barbara Norton, who considers him a slacker. John is induced to read Edward Everett Hale's famous story: "THE MAN WITHOUT A COUNTRY," and the incidents seem to him like a replica of his own life in a previous existence. As Lieut. Phillip Nolan, U. S. A., John sees himself on trial for the identical curse against the United States: uttered by himself; then condemned to pass the rest of his life as an unshackled prisoner on board a warship without ever hearing of the country to which he belonged, and eventually dying in his cabin with a benediction for the flag of the United States.

The visualization of the story quickens in John Alton, the dormant sense of responsibility to his country, and he becomes a recruit at Fort Slocum.

Meanwhile Barbara has been a Red Cross nurse in France. The ship on which she is returning to America is attacked by a German submarine and the wreck floating in mid-ocean presents a triumph to film realism. Whether Barbara was rescued from the wreck to resume the interrupted romance with her former lover is fully revealed in the final reel. ## WILL YOU HELP OUR BOYS ABROAD?

Every Man, Woman and Child Can Join to Send News of This Town Into the Front Line Trenches.

WHOLE NATION MOVES TO BANISH SOLITUDE.

Our Heroes Are Calling From Over There—Give What You Can to Help Those From Home.

Every citizen interested in the boys of his home town now at the front, and in the brave women who equally are serving their country abroad, has an opportunity to show his appreciation of the sacrifice they are making. The opportunity comes as a result of the generosity and thought of Colonel William Boyce Thompson of New York, who has conceived and put into execution what is known as the Home Paper Service.

Under the plan, every man and woman in foreign service will receive the town newspaper, and so be kept in constant touch with the places and the people they know and love.

Every branch of the United States Government is interested in the plan. The Government realizes the importance of keeping those in the service happy and constantly in touch with their home ties and associations. Nothing is more depressing in a national emergency than the spirit of loneliness in those serving their country, and officials know that nothing can dispel this feeling more effectively than reading the home town newspaper.

Publishers of newspapers in all parts of the country—this newspaper included—have grasped with pleasure the plan outlined by Colonel Thompson, and they have agreed to co-operate in every way.

Under the ruling of the War Industries Board newspaper publishers are forbidden to send their newspapers free, even to soldiers. The newspaper must be subscribed for in the regular way, the only exception being soldiers who formerly were in the employ of the newspaper and who left that service to enlist. Colonel Thompson therefore proposes that the public in each community contribute to a fund so that the home newspaper (in our case this newspaper) may reach every man and woman now in the service of his country.

Anyone may contribute to the fund, and any sum may be contributed. It is not necessary to contribute the entire amount of one subscription. It does not matter whether the rich man sends in one hundred dollars or the poor boy or little girl sends in five cents. Each gift will be a message of love and helpfulness to the home town folks "Over There." The money will be lumped into one fund, out of which subscriptions will be entered as fast as the money is received.

Contributors who send in the full price of a year's subscription may, if they wish, designate to what particular person they wish the newspaper sent, but if the name given is already listed as receiving the paper, then the publisher reserves the right to apply the subscription to some less fortunate soldier boy or noble woman who is just as lonely for news of home and home folks.

The name of every contributor to this home paper service will be published in this newspaper, and the name of everyone entered for a subscription will be published as well as the number of those remaining whose subscriptions have not been covered.

If the amount of money received shall be more than is necessary to send the paper to every person from the town now in the service, then the balance will be turned over to the Red Cross.

The plan is endorsed by the publisher of this newspaper without any thought of profit, either directly or indirectly, but with a sincere desire to help keep the home fires burning and to send to our heroes and heroines news of our town, to keep their hearts warm for us and to let them know they are constantly in our minds.

The publisher, of course, cannot make a profit on circulation, and additional circulation such as this will be—circulation from non-purchasers sent far across the sea—can have no added value to the advertiser.

These facts are stated so that every contributor may feel that every cent contributed goes to the good cause.

The mothers of our boys are facing an ordeal with a bravery that commands respect and admiration. Here and there where tiny stars are turned from blue to gold, where anguish grips the heart, the nation stands in silence and honors the women who have given of their blood, the very bone of their bone, to their country. To them, home has lost its meaning—the soul of it has fled—there is no home, it is just a place, and no place is quite so lonely, unless it be within the hearts of those brave sons in far off France who long for just a word of home. There cannot be a man, there cannot be a woman, no, not even a child, who will fall to contribute just a little to make the hearts of these patriots lighter. Not one. Not in our town.

LETTERS from our boys in the trenches and from the women in canteen and other war work, all bring to us the same message—SEND US NEWS FROM HOME.

World news is all right, but OUR BOYS want NEWS OF THIS TOWN. They want the home newspaper. Publishers are prevented from sending their papers free to anyone, even boys in the service. Consequently a national movement has been started by Col. William Boyce Thompson of New York, who is acting as President of the Home Paper Service of America to give the boys what they are calling for. Every community is joining the movement. Let us see that our boys are not forgotten.

Send to the publisher of this newspaper whatever amount of money you can—5 cents or \$50.00. We will publish a list each week of those contributing, and the amounts contributed.

Every cent received will be used to send this paper to our boys at the front. If at the end of the war, there is any surplus, it will be turned over to the local Red Cross Committee.

There is no profit in this to the publisher—even in normal times, subscriptions are not sold at a profit. With war prices prevailing, and the high rate of postage on papers sent to France, our cost will scarcely be covered by our full subscription price.

Remember that over in France, some brave soldier or sailor from this town—perhaps even some splendid woman working within sound of the guns—is depending on you to "KEEP THE HOME LOVE KINDLED."

They are calling to YOU from "Over There" GIVE WHAT YOU CAN

Adair County Boys in France want to see THE ADAIR COUNTY NEWS. We do not know his address. You do. Send the paper to him, \$1.50. Takes it to the Trenches. It will, at last, make a good gun wad for the boy in close quarters.

Mrs. Millie Hill is receiving a big line of fall hats this week.

Services at Union church on the first Sunday in October. Everybody invited to attend.

Rev. O. P. Bush filled his last appointment with us last Saturday and Sunday. Mr. Bush is a good preacher and we regret his resignation.

A little child of George Parson has been dangerously sick for the past month with a complication of troubles.

Our road from this place to Bliss is being put in fine condition. The hands have been working on it for the past two weeks.

The pie supper given by our efficient teachers, Miss Butler and Mrs. Smith, last Saturday night, at the school building, was largely attended. The exercises rendered by their pupils were fine. The net proceeds of the pies that were sold amount to \$20.15, which amounted was donated to the Red Cross. The little daughter of Mr. and Mrs. L. E. Thomas, has the promo for her pie, bringing the most money, which was \$3.00.

Land sales continue in this part of the county. Porter England sold his farm near here, to Mr. Garrison, for \$1,500. T. W. Dowell sold his farm known as the J. D. Walker farm, to Dr. L. C. Nell for \$6,500. He also sold to Rodgers & Blades, of Keltner, his farm, known as the Diddle farm, for \$10,000. These two farms are considered the best farms in this part of the county. Mr. Dowell is thinking of buying a farm near Campbellsville. Mr. Dowell, beyond a doubt, is one of the best business men in this part of the county, and we regret to give him up.

We are glad to note that George W. Dudley and family are now citizens of our town, having moved into his new property.

## AMERICA'S FRONT IS FROM NO MAN'S LAND TO PACIFIC

DEPTH OF OUR FORCES DESCRIBED BY AMERICAN OFFICER TO BRITISH COMRADE.

### BACKING LINE WITH BONDS

Support of Battle Forces Extends From France to Your Own Doorway.

It was just after the American troops had taken over their first sector on the Western front one day last fall. An English officer was talking with an American captain who had just come back from a tour of duty in the trenches. They were talking military problems and the Englishman asked:

"What is the depth of the American front?"

"From the German barbed wire in No Man's Land to the Pacific Coast," was the American officer's answer.

Of course, the Englishman referred to a military technicality when he asked his question, and yet the American captain was right. He told the whole story of American participation in the war when he made it plain that all of America is in the battle front.

America had not been in this war six months till we all understood it was a different sort of a war from what we had expected. Years ago we all pictured war as a struggle in which a few from each community went away, while the great majority of the people stayed on at home and went about their business and life went along undisturbed. We know better now. We realize we are all in the struggle.

#### All Are Enlisted.

Those who cannot fight, who cannot work in war plants, who cannot help in Y. M. C. A. huts or Red Cross hospitals can help nevertheless. The Liberty Loans offer an opportunity for every man and woman in America, for every American under the protecting shadow of the Stars and Stripes to help support the battle front of America far across the seas in Europe.

The front reaches all the way back to our pay envelopes, to the money that was brought in for a load of wheat, to the returns from a corn crop, for building a house, for a day's work at the mill or in the fields.

Every bond that is bought strengthens the American front by just that much. It makes it just that much easier for the Americans to drive the Hun back. It stiffens the American line by just so much against those grim massed attacks of field gray shock troops that Von Ludendorff loves to send against the Allied lines. Every Liberty Bond is helping the Americans, it is helping the French and the English and Italians, who are fighting as they have never fought before. It helps hold all the more solidly that deep American front that stretches back of No Man's Land and reaches all the way across the Atlantic, across the Alleghenies, across the wide stretches of the Middle West, across the Great Plains and wall of the Rockies and ends at last at the Pacific beaches.

That is what the American front is like for depth, and it is as wide as the country that stands back of us and as solid as the credit of American institutions.

#### Must Keep Front Solid.

It can be kept as solid and enduring as the Rockies by every American lining up to take his share of the Liberty Loan that is at hand. It cannot be kept solid and safe in any other way. It takes money to fight wars and support armies. It takes more money to build merchant ships and destroyers and submarine chasers.

Every one of us will have to think this out honestly and carefully. It won't do to just buy as small a bond as we can afford to buy. The American front is weakened by that kind of patriotism. When the time comes to sign up for the Fourth Liberty Loan take every dollar you can spare and get into it for all you can possibly afford. It is a good investment, none better in the history of the world, and it is helping to bolster up that American front that is going to smash into the Kaiser's domain one of these days and send the whole German nation crashing down to defeat.

When you buy a bond you are making it certain that the American front is being supported all the way from France to your own doorway. It makes you a part of that magnificent body of fighters who are massing over in France to put an end to the Kaiser's dream of leaving tribute from a once free America.

#### Dig Deep for Dollars.

Help harass the Hun—make militarism miserable—kill kultur completely—buy Bonds bountifully.

"A rose to the living is more than sumptuous wreaths to the dead," means for one thing that your purchased Fourth Liberty Bond will avoid many an occasion for "wreaths."

## FARM PROSPERITY CAN BE PERMANENT IN BOND HOLDINGS

HIGH PRICES OWING TO WAR CONDITIONS MAY NOT CONTINUE INDEFINITELY.

### BONDS WILL GAIN IN VALUE

Drouths and Bad Seasons Will Not Affect Income from United States Securities.

The argument is being made in many sections of the country—and it is one based on solid truth—that out of the great wealth the war has brought to the farmers of the United States, in high prices of products, the wisest thing he can do is to invest in Liberty Bonds that will increase in value.

Drouths may come in other years and spoil his crops; prices may go down nearer the normal, and if prices should remain secure at the present figures the chances are he will not have the present abundance to sell.

Farmers of Tennessee, Kentucky and Southern Illinois are getting a higher price than ever known since Civil War days for their tobacco, and some think that the present-day prices beat the record of '61-'65. Farmers are now getting from 20 to 40 cents a pound and making more than 1,000 pounds to the acre. This means from \$200 to \$400 per acre—more than the land ever brought in any section of the country.

#### High Prices for Products.

On account of the shortage of wool and the demand for its use in knitting for our soldiers, the cotton crop of Mississippi, Georgia, Alabama, Tennessee, Texas and other states will bring a record price on the market. Foodstuffs are more in demand than ever before. Not even the demand of Civil War days can equal the demand of America and Europe for our hogs, cattle, sheep, corn, wheat, potatoes and other food products.

The reason for this prosperity, it is pointed out, is because millions of men are chewing and smoking tobacco and not making it; millions are wearing clothes and uniforms and are not raising cotton; sheep are being eaten for mutton and are not making wool and the countries of Europe that once produced in abundance now resort to the noise of battle and the tramp, tramp, tramp of countless millions of our men of war.

That is the reason of the present high prices, and it is wisely predicted they will not last forever. Will farmers be profligate with their increased wealth at a time when conservation is the watchword of our country, or will they act the part of the wise man who lays by him in store for the future?

#### Put Surplus in Bonds.

Another Liberty Loan campaign is being launched, that the government may have money that is needed to continue to prosecute the war. Farmers cannot do better, the solid investment advice is given, than to buy bonds and to continue to buy them until their surplus wealth is all invested.

After the war these bonds will increase in value as the years go by. Government bonds have always gone to a premium in a short time. Best of all, it will help to whip the unrighteousness of the Hun and restore freedom, peace and happiness to the world.

Just as thieves cannot break into heaven and steal the treasures that are there, nothing can touch or lower the worth of Liberty Bonds. Drouths and wet seasons, insecure speculation, uncertain investments and other means of losses cannot reach government bonds.

### GERMANS WATCH 4TH LOAN

Hun Realizes That Quick Subscription Means Loss of War to Them.

The campaign for the Fourth Liberty Loan will begin Sept. 28 and close Oct. 19. The result of the loan will be watched with keen interest in Europe, says a United States Treasury official, not only by our associates in the war against the Teutonic powers, but by our enemies. It will be regarded by them as a measure of the American people's support of the war.

The Germans know full well the tremendous weight and significance of popular support of the war, of the people at home backing up the army in the field. As the loan succeeds our enemies will sorrow; as it fails short they will rejoice. Every dollar subscribed will help and encourage the American soldiers and hurt and depress the enemies of America.

The loan will be a test of the loyalty and willingness of the people of the United States to make sacrifices compared with the willingness of our soldiers to do their part. There must be and will be no failure by the people to measure up to the courage and devotion of our men in Europe. Many of them have given up their lives; shall we at home withhold our money? Shall we spare our dollars while they spare not their very lives?

## VOLUNTEER DAYS TO OPEN FOURTH LOAN CAMPAIGN

LIBERTY LOAN DRIVE OPENS SEPTEMBER 28 AND WILL CONTINUE FOR 3 WEEKS.

### VOLUNTEERS HAVE TWO DAYS

Citizens Are Urged to Make Their Pledges on First Two Days, September 28 and 29.

The Central Committee of the Eighth Federal Reserve District has set aside Saturday, September 28, and Sunday, September 29, the opening days of the Fourth Liberty Loan Campaign, as "Volunteer Subscription Days."

It is intended that on these two days opportunities shall be provided for all citizens in the district, to voluntarily, without solicitation, subscribe for Fourth Liberty Bonds.

The directors of publicity are requested previous to the opening of the campaign, to arrange for publicity throughout all counties and cities, bringing to the attention of the people the opportunity of expressing voluntarily their patriotism and loyalty, by buying Liberty Bonds.

#### Churches Will Help.

The director of speakers will arrange to have patriotic speeches and mass meetings on these days, and all churches on Sunday, September 29, will have patriotic sermons preached.

Sales Director Vincent L. Price has issued instructions to each county chairman and director of sales requesting their co-operation on the plan. Places must be provided in each locality, where the people may enter their subscriptions, and ample publicity must be given. Director Price suggests that booths, offices, stores and banks may be used. The factories should be organized for "Volunteer Day," and some one present to receive subscriptions.

It is expected that the Women's Division will have an important part in the work of "Volunteer Days," and they should be included in all plans.

The work of subscribing on Sunday, September 29, will be largely through the churches, and the Liberty Loan Workers are particularly instructed to see that the pastors of each church is advised of the plans, and requested to aid in the work.

#### Buttons and Flags on Hand.

The head of the sales department in each community is expected to see that subscription cards, Liberty Loan buttons and individual honor flags are at hand. These supplies may be obtained through the Central Liberty Loan Organization at St. Louis.

Mr. Price says that it is felt that this idea of Volunteer Subscription Days is wanted by the people and that they will respond to same readily and liberally. If such proves to be the case it will be a movement toward simplifying and shortening the Liberty Loan Campaigns.

In France and England the Loans are all taken by Volunteer Subscriptions.

The Loans are announced by the right kind of publicity, places and means for subscriptions are provided and the people take the Loans.

That's all there is to it there—why not here?

#### GIVING.

By Mary Carolyn Davies.

Just Money That is all we're asked to give.

He gave his life, Jim. He'd have liked to live

For Betty—bless her shy young heart had only

The week before he left, put on his ring.

How long her life will be for her, how lonely

With nothing of him but remembering!

She never flinched, nor he, my son, they gave;

She working still, and Jimmie in his grave.

And now today we're asked again to save,

And give, give, give the country what we've sweat

And toiled to earn. It's hard to all—and yet,

We safe, we calm, we fortunate, we living,

I wonder, dare we, dare we call this giving

Remember Volunteer Days—September 28 and 29.

..

If the right kind of a response be made on Volunteer Days—Sept. 28 and 29—the Fourth Liberty Loan Campaign will be given such an impetus that the allotted three weeks will not be required to sell the bond issue.

..

In France and England all the loans to prosecute the war are taken by voluntary subscriptions. Two Liberty Loan Days—Sept. 28 and 29—are set aside to open the Fourth Liberty Loan Campaign. Every one should place his volunteer subscription on one of these two days and not wait for the solicitors.

## Life Was a Misery

Mrs. F. M. Jones, of Palmer, Okla., writes: "From the time I entered into womanhood . . . I looked with dread from one month to the next. Nothing seemed to help me until, one day, . . . I decided to

"I took four bottles," Mrs. Jones goes on to say, "and was not only greatly relieved, but can truthfully say that I have not a pain. . .

"It has now been two years since I took Cardui, and I am still in good health. . . I would advise any woman or girl to use Cardui who is a sufferer from any female trouble."

If you suffer pain caused from womanly trouble, or if you feel the need of a good strengthening tonic to build up your run-down system, take the advice of Mrs. Jones. Try Cardui. It helped her. We believe it will help you.

Grace Wolford, who teaches at Mt. Zion, district No. 74, sends in the following piece of poetry, which was composed by one of her 15 year old pupils, Mr. Rossie Moxley.

There is the Kaiser,

He is on his last hitch,

We are after his head,

To pitch it in the ditch.

We will cut off his arms

And split up his legs,

Then we'll wipe the blood

Off on his old black flag.

We'll walk into his palace,

And we'll spit upon the floor

We'll hang "Old Glory"

Right over the door.

Then we'll march out

Of the nasty old den

And kill every German

In old Berlin.

Then we'll march

Right on up the street,

Killing every Hohenzollern

That we may chance to meet.

We'll go on and on.

And make a great noise

To let them know that

We are "American" boys.

## SKETCHES OF ADAIR COUNTY.

Historical and Biographical that Will be of Interest to all Readers of the News.

BY JUDGE H. C. BAKER.

No. 35.

Reminiscences of Col. Wolford.

In 1861 Wolford was presented with a fine sword and a pair of spurs by citizens of Lexington and Fayette county, and, in responding to the presentation speech he criticised the emancipation proclamation of the President and the policy of enlisting negroes in the army. For this he was dismissed from the service.

Soon afterwards he was nominated by the Union conservative convention as candidate of that party as one of State electors on the McClellan and Pendleton Presidential ticket, and about the same time he was requested by Gov. Bramlette to raise a regiment of six months troops. He immediately commenced a canvass of the State for the twofold purpose of raising the troops and to discuss the questions at issue between the political parties. In a short time he succeeded in raising the regiment, and, upon arriving at Lebanon, Ky., the rendezvous appointed by Bramlette for the mustering the men into service, he was met by an officer of the United States Army with an order for his arrest. This resulted in the disbanding of the men and their return home.

He was carried to Washington, and afterward ordered back to Louisville upon his written parole not to leave the city.

Soon thereafter he received from President Lincoln a communication which read as follows:

"Executive Mansion.

Washington, July 17th, 1864.

Col. Frank Wolford,

My Dear Sir: By this mail I send to the Honorable James Speed a blank parole in duplicate, which if you choose you can sign and be released. He will call upon you. I enclose a printed copy of the letter I read to you the last day you were with me, and which I shall be pleased for you to look over.

Very Respectfully,  
A. Lincoln."

The parole sent to Mr. Speed required Wolford "to pledge his honor that he would neither do nor say anything which would directly or indirectly tend to hinder, delay or embarrass the employment and use of colored persons as soldiers, seamen or otherwise in the suppression of the rebellion, so long as the United States Government chose to use and employ them.

Wolford refused to sign the parole, or to receive his freedom on such terms and, addressed a letter to the President of the date of July 30th, 1864, which in the boldness of its utterance was worthy of a Hampden or Pym.

It was extensively published in the papers of the day, and entered largely in the canvass of that year. A copy of that letter is before me as I write and is, indeed a wonderful production when the

times and circumstances are considered.

In reference to the parole it said "In answer to this proposal I have frankly to say that I cannot bargain for my liberty and the exercise of my rights as a freeman on any such terms. I have committed no crime. I have broken no law of my country or of my State. I have not violated any military order, nor any of the usages of war. No act or word of mine has ever given encouragement to the enemy. All my sympathies are with and all my hopes are for my country.

You, Mr. President, if you will excuse the bluntness of a soldier, by an exercise of arbitrary power have caused me to be arrested and held in confinement contrary to law, not for the good of our common country, but to increase the chances of your reelection to the Presidency, and otherwise to serve the purpose of the political party whose candidate you are; and now you ask me to stultify myself by signing a pledge whereby I shall virtually admit your right to arrest me, and virtually support you in deterring other men from criticising policy of your administration. No sir, as much as I love liberty, I will fester in a prison or die on a gibbet before I will agree to any terms that do not abandon all charges against me and fully acknowledge my innocence.

We, the Union men of Kentucky claim as a constitutional right (alike in time of war and in time of peace) the freedom of speech, and the freedom of the press and the freedom of election and we claim that the freedom of speech and the freedom of the press extend to the unrestricted discussion of the merits and demerits of every candidate for office, yourself among the rest; to the criticism of your whole course, conduct, and policy, the policy of enlisting slaves not excepted. You must undergo the same tests that are applied to other candidates; if not, our system of free government is a mockery."

This letter was in its terms a vindication of himself, a plea for the freedom of speech and elections, and a arraignment of the President both in regard to his treatment of him (Wolford) and the conduct of the war, and, it must have impressed the President, for he answered it in courteous terms, and issued an order for his immediate release.

Soon after the election of that year Wolford was again arrested by the military department and confined in prison for several weeks, but it was evidently done without the knowledge of Mr. Lincoln, for when his attention was called to it by Senator Powell, he disclaimed any knowledge of it, and had him liberated.

To be continued next week.

## Captives.

WITH THE AMERICAN ARMY IN THE CHAMPAGNE, July 18 (United Press).—After killing or capturing the crews of four machine guns and raking a German-filled trench with his automatic rifle until the survivors surrendered, Sergt. J. F. Brown walked into American Headquarters late yesterday with 159 prisoners.

I am sorry, sir, that I was unable to bring in all I had," he said in reporting, "but four of the wounded died on me." Brown, separated from his platoon, was the only one left.

## Sergeant Brown was hard to satisfy

Four machine-gun crews to his credit was a pretty fair record for one day's work. But why leave a perfectly good trench half filled with Germans? Brown didn't.

The hail of machine-gun bullets could not stop him. He was not thinking of them. Shrapnel was bursting all around him. He did not heed. His rifle was so hot he

couldn't touch it, so he laid it in the hollow of his arm and kept on firing; the Germans kept on yelling "Kamerad!" and throwing down their guns. Brown forgot danger and death, he forgot that he was alone against a hundred and fifty Germans. He forgot everything but his job—Victory. And he walked proudly into camp with one hundred and fifty-nine prisoners.

Believing that it is the duty of every person who enjoys the freedom and privileges of citizenship in our great Country to do his utmost to help win the war, the following firms and individuals have patriotically contributed the money to pay for this and other advertisements of the Fourth Liberty Loan?

MYERS & BARGER, CO. mill and grain, 1-10 page.

ELZY YOUNG, 1-10 page.

RUSSELL & CO., Dry Goods and Notions, 1-5 page.

Other parties who are business men of Columbia have contributed to publish the next and last page of Fourth Liberty Loan. Watch for their names next week.

We've got a big job over here, too. We must provide guns and shells and food and clothing for men with the spirit of Sergeant Brown—to send them forward to Victory. Let's do our job as he did his—fearlessly, persistently and quickly. Brown didn't wait to do his duty—why should you?
